

## **ARTICLE II DEFINITIONS**

### **ALLOCATION**

**“Allocation” means a system of registering a Fleet that operates in more than one Member Jurisdiction under which the Vehicles are fully registered in individual Member Jurisdictions in proportion to a measure of the presence or travel of the Fleet in each one, and under which the Vehicles so registered are granted Reciprocity in all the Member Jurisdictions in which any of the Vehicles of the Fleet is registered.**

#### **HISTORICAL NOTES**

**Adopted:** Ballot FT-333, effective July 1, 2008. **Amended:**

### **APPLICANT**

**“Applicant” means a Person in whose name an application is filed for registration under the Plan.**

#### **HISTORICAL NOTES**

**Adopted:** Ballot FT-333, effective July 1, 2008. **Amended:**  
**Related Provisions, 2006 Plan:** Section 263.

### **APPORTIONABLE FEE**

**“Apportionable Fee” means any periodic recurring fee or tax required for registering Vehicles, such as registration, license, or weight fees.**

#### **Official Commentary**

This provision describes the type of fees to be apportioned; the key words are “periodic” and “recurring.” A registration, license, or weight fee is only apportionable if it is a “periodic recurring” fee.

#### **HISTORICAL NOTES**

**Adopted:** Ballot FT-333, effective July 1, 2008. **Amended:**  
**Related Provisions, 2006 Plan:** Section 202.

### **APPORTIONABLE VEHICLE**

**“Apportionable Vehicle” means (except as provided below) any Power Unit that is used or intended for use in two or more Member Jurisdictions and that is used for the transportation of persons for hire or designed, used, or maintained primarily for the transportation of property, and:**

**(i) has two Axles and a gross Vehicle weight or registered gross Vehicle weight in excess of 26,000 pounds (11,793.401 kilograms), or**

**(ii) has three or more Axles, regardless of weight, or**

**(iii) is used in combination, when the gross Vehicle weight of such combination exceeds 26,000 pounds (11,793.401 kilograms).**

**A Recreational Vehicle, a Vehicle displaying Restricted Plates or a government-owned Vehicle, is not an Apportionable Vehicle; except that a Power Unit, or the Power Unit in a Combination of Vehicles having a gross Vehicle weight of 26,000 pounds (11,793.401 kilograms), or less, nevertheless may be registered under the Plan at the option of the Registrant.**

#### Official Commentary

A Vehicle is determined to be apportionable according to the characteristics and use of the Vehicle or the Combination of Vehicles. Trailing equipment, however, is only registered under the Plan pursuant to an approved Exception, unless it is registered under Section 910.

Certain types of vehicles or Combinations of Vehicles that travel or are intended to travel in two or more Member Jurisdictions, but are not otherwise within the definition of Apportionable Vehicle may be apportioned if the Registrant so chooses. Vehicles not apportioned are subject to registration and fee payment in accordance with each Base Jurisdiction's general registration statutes. These non-apportionable Vehicles may be entitled to Reciprocity in other Jurisdictions under applicable Reciprocity Agreements.

The intent of the Registrant or Applicant to operate a Vehicle in two or more Member Jurisdictions is to be considered as an objective fact, determined from all the circumstances of the particular case. The fact that a Vehicle is not used in more than one Jurisdiction for the entirety of a Registration Year and for six additional months gives rise to a presumption that the Registrant did not intend to use the Vehicle in more than one Member Jurisdiction. Such a presumption may be overcome, however, by other circumstances presented by the Registrant.
